A. Introduction

Education is one of our primary necessary for our life ,in the fact society there still not understand how important the education ,The government make any variety regulation, as present time any new policy for recruitment new student at public senior high school is Zonation System recruitment .is meaning all the society who closed with the school can entered their children to public senior high school easily ,any percentage each school who applicate this rule from government like zonation system recruitment.

B. Program Evaluation

Stufflebeam and Guba (1968) is definiting evaluation as “The process of delineating, obtaining, and providing useful information for judging decision alternatives” and Joan L. Herman dalam Tayibnapis (2008, p. 9) defineting program as all the things who doing by some one trying with result or effect wish. Both of the description about program and evaluation is one system who related each others .to the article this explaining about evaluation of zonation in recruitment new student at public senior high school at Sukabumidown town ,the goal evaluation is aimed how much the effect for school ,parent,and environtment it self .If the zonation aplicated at Sukabumi.
C. Zonation System

Zonation system is meaning the rule made by government aimed to spread or equalization spreading the student according with their domicile. Many student who graduated from junior high school not have any chance to joint with public senior high school at sukabumi down town, because the rule of zonation system not allowed it. Zonation system make any rule like percentage the student who may joint with public senior high school are limited, the qualification who can entered that school like the distance who closed with that school may have big chance to joint it, even though out from the distance could be, but not according with the all student or parent wish.

Sukabumi down town public senior high school first time when the rule of zonation applied, many student or parent disappointed it, because many they are not to be include. but as long as the time has gone the society accepted begun. They realize government have good aimed with this rule, zonation system to be ruled at PERMENDIKBUD no 14 at 2018 and said ‘The zonation will made percentage 90% from closest domicile and 10% from out domicile. But now has revised the percentage is 50:50 between closest domicile and out off distance. In this case zonation evaluation program is a research wishes new science and knowledge or inovation.

D. Recruitment new Student

Is a process student to be accepted in one of school any where ,depend on their self according to be choosen ,many parent hope their children entered to public school ,like senior high school .but the qualification is complicated. Herek said (1982:9) basically registration its to easily new recruitment student,dating,class parting students.as far as could be organized ,systematic by fast and exactly with some qualification who tobe applicated each school .new recruitment student is one of school obligation and education office

Senior high school is a range middle education at formal education in Indonesia after passed from junior high school must be continue to senior high school the class begun from 10 until 12 and 3 years for fasted it. At 1950 senior high school tobe three parting there are:

1. Senior High School A (Language major)
2. Senior High School B (Science Major)
3. Senior High School C (Social Major)
At 1980 Senior high school changed the nomenclature of major, there are
1. A.1 (physics Major)
2. A.2 (Biology Major)
3. A.3 (Social Major)

At 1994 until 2004 Senior High School changed to be Senior Public School, and the last since 2005 until present time the nomenclature to be Senior High School. Public Senior High School is a school who government have and care it all the system following standar ruled who applicated in government.

E. Evaluation Model

In evaluation science, there is a lot of evaluation model could be used to evaluated aprogram, but in this evaluation, evaluator using CIPP models, (Contex, Input, Process, and Product) to collecting the dated. Arikunto (2014: p 40) said, even though different model of evaluation but the aims is equal. for collecting the document or information who related with the research object

CIPP models is one of the evaluation models famaous and applicated by evaluator. CIPP models tobe develop by Stufflebeam and their parners (1967) in Ohio State University. This models decition oriented evaluation research structured. CIPP models have 4 contex there are:

1. Contex evaluation

Is related the problem who relevance with program environment or objective condition will be executed, filling about power analysis and objection weakness specially (Eko puto Widoyoko :2010) Suharsimi Arikunto dan Cepi Safrudin (2009)said, contex evaluation is endevour for drawing and detailing unfully environment necessary, population and sample to be served and the goals project.

2. Evaluation input

The second steps from CIPP Models is Evaluation Input, Eko Putro Widyoko said evaluation input favor to managed the decision, to determine the sources, choosing alternative, planning and strategy to achieve the goals, and what a work procedure. The component evaluation input there are:

a) Human resource development
b) Logistic support
c) Funding or budgeting
d) Adding tools or procedure needed
3. Process Evaluation

Process Evaluation using for detecting or predicting procedure design or implementation design as long as the steps implementated, information available for program decision as a recording or document who has executed. Process evaluation there are:

a) Evaluating who has determine and practice in program execution
b) Finding information as far as the program is going on and what must be repairing

4. Product Evaluation

Is evaluation who doing for seeing the result or reaching program in a goals who to be hope before. in this step evaluation the evaluator could determine or giving recommendation to evaluan, is the program could be continuing, developing/modifying or even stopping.

F. Evaluation method

1. Evaluation goals

Based on problem formula above the goals of zonation evaluation is:

a) Finding Information accordance recruitment new student program with zonation system and non zonation system at public senior high school Sukabumi Down Town
b) Finding information how far the school ready to applied zonation system at public senior high school at Sukabumi down town
c) Finding information the teachers competence Public Senior High School at Sukabumi Down Town in applying zonation system in recruitment new student
d) Finding information the quality of zonation system in recruitment new student

2. Place and time evaluation

a) Place of evaluation, the place of evaluation there are SMAN 1, SMAN2, SMAN 4, SMAN 5 at Sukabumi Down Town
b) Time of evaluation, the time of evaluation is according to the schedule below:

### G. Conclusion and Recommendation

#### 1. Conclusion

Base on research and zonation evaluation recruitment new student at Public senior high school at Sukabumi down town with CIPP Methode conculating as follow:

a) Contex component, policy necessary analysis school, Vision Mision, and goals. Conculating that has according to general standart each variable tobe compared from any school between SMAN 1, SMAN 2, SMAN 4 and SMAN 5, they have fulfil the mission as general criteria, it has according to with zonation system at recruitment new student whom must applicated each public school at sukabumi down town in early new education callender

b) Input Component there are, students, teachers and operator and logistic support, in general has fulfill standart, amount of student and teachers has balanced sufficient, its not big effect. But if look from wishing of student or parent they want primitive system not Zonation, but that contrary if always using the primitive system the aims to spreading the student in regional is very difficult.
c) Process Component, the activities of learning and study in public senior high school at SMAN1, SMAN2, SMAN4, SMAN5, has schedule in accordance with the government rules at 5 days per school as long as 40 hours per week with zonation system has not changed in the learning process.

d) Product Component, every public senior high school has good prestations and expert according each field, all the results from good process learning and study, even they have a little degradation because of compound recruitment.

H. Recommendation

1. The government have to making new policy from zonation system because the percentage from that rule is make the privet school has decrease the student each school, because the parent and new student choosen public school.
2. The government have to making new policy from zonation system because the percentage from that rule is make the privet school has decrease the student each school, because the parent and new student choosen public school.
3. Supervision from the education office must be grading.
4. The government Have to socialization for society, because still many parent and student has not yet understand the zonation system.
